EXPERIENCE

Generation-C, Sheraton—Software Engineer Internee

FEB 2023 - PRESENT

As a Software Engineer Intern at Generation-C in Sheraton, I gained hands-on experience in software development. I collaborated with the team on various projects and learned about the software life cycle, Agile, and Front-end

Faculty of Computers and AI - HU — Team leader, Front end developer

FEB 2023 - PRESENT

Jonuir is an accomplished team leader and front-end developer proficient in React and Agile project management. Led the design and development of Alumni Management Software, ensuring seamless integration and delivering high-quality outcomes.

Faculty of Computers and AI - HU — Team leader, Front end developer

FEB 2022 - MAY 2022

Led a team of seven to develop and launch Doctor Web, a web-based app connecting patients with doctors. Designed 12 pages using HTML, CSS, and JS while coordinating team efforts, ensuring success, and receiving top marks.

EDUCATION

Faculty of Computers and Artificial Intelligence, Helwan-UN
Level two.

SEP 2021 - Present

PROJECTS

Paste & GO— *URL downloader*
"Paste & Go" is a lightweight, user-friendly web app that allows users to easily download videos from popular social media platforms like YouTube, Facebook, and Instagram. Built with React technology, "Paste & Go" is designed for speed and simplicity, with a clean and intuitive interface that makes it easy for anyone to use, Paste & GO.

ToDo list
"ToDo List" is a user-friendly web application that enables users to easily create and manage daily to-do lists, ToDo list.

XO game
"XO Online Game" is a simple and addictive web game that allows users to play tic-tac-toe online with other players. The game is built with HTML, CSS, and JavaScript and is designed for easy access and playability, XO.

Youtube
I run a YouTube channel focused on software engineering, where I provide comprehensive tutorials and revision materials to help my college students excel in their software engineering studies. The channel covers a wide range of topics, including programming languages, web development, software design, and more. Join me on my channel to enhance your knowledge and skills in software engineering.
